

Wooooo!

Look closely!  
It's a life-size doll  
modeled on you!

Please don't make  
such a doll without  
my permission!

You should get  
my permission  
before the police's  
permission!!

Flump

Yes. In Japan, those who  
pass the patent attorney  
examination are also given  
that qualification.

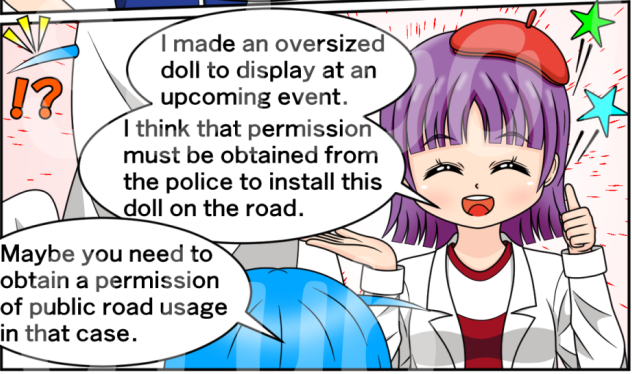

You also have the qualifi-  
cation of "**Certified Admi-  
nistrative Procedures  
Legal Specialist**", right?

Qualifications we're having Part 13  
**Certified Administrative Procedures  
Legal Specialist**

What kind of  
work is that  
qualification  
to do?

For example, it's  
preparing documents  
to submit to govern-  
ment offices. What happened  
all of a sudden?

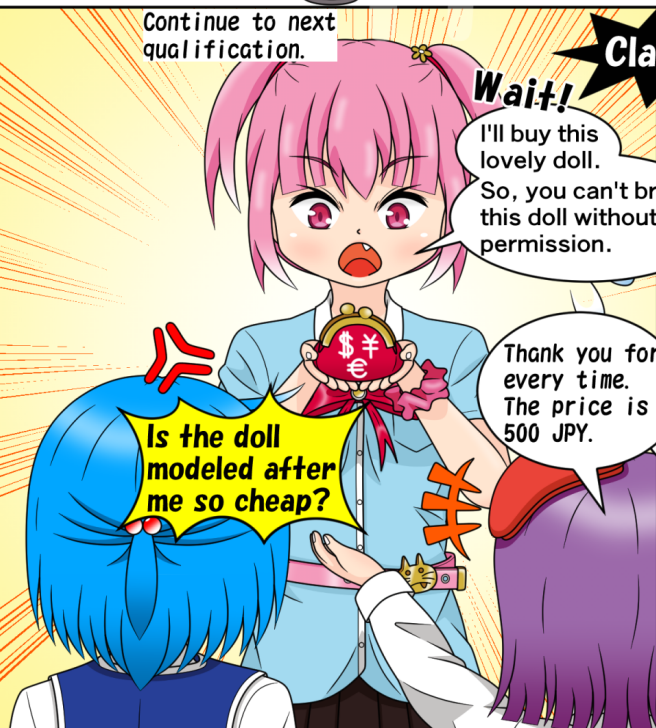

I made an oversized doll  
to display at an  
upcoming event.

I think that permission  
must be obtained from  
the police to install this  
doll on the road.

Maybe you need to  
obtain a permission  
of public road usage  
in that case.

Continue to next  
qualification.

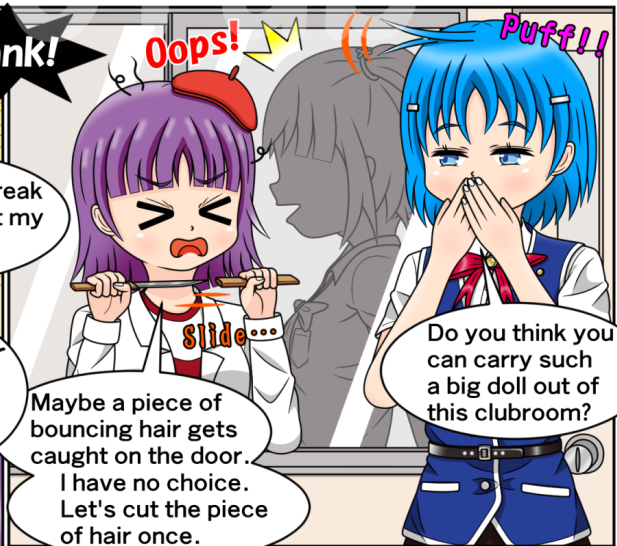

Wait!

I'll buy this  
lovely doll.  
So, you can't break  
this doll without my  
permission.

Thank you for  
every time.  
The price is  
500 JPY.

Is the doll  
modeled after  
me so cheap?

Clank!

Oops!

Puff!!

slide...

Maybe a piece of  
bouncing hair gets  
caught on the door.  
I have no choice.  
Let's cut the piece  
of hair once.

Do you think you  
can carry such  
a big doll out of  
this clubroom?
