

I don't think she has even a uniform.

Whew!

She said like this, but is she going to swim in these clothes?

If she swims in such clothes, she'll surely drown.

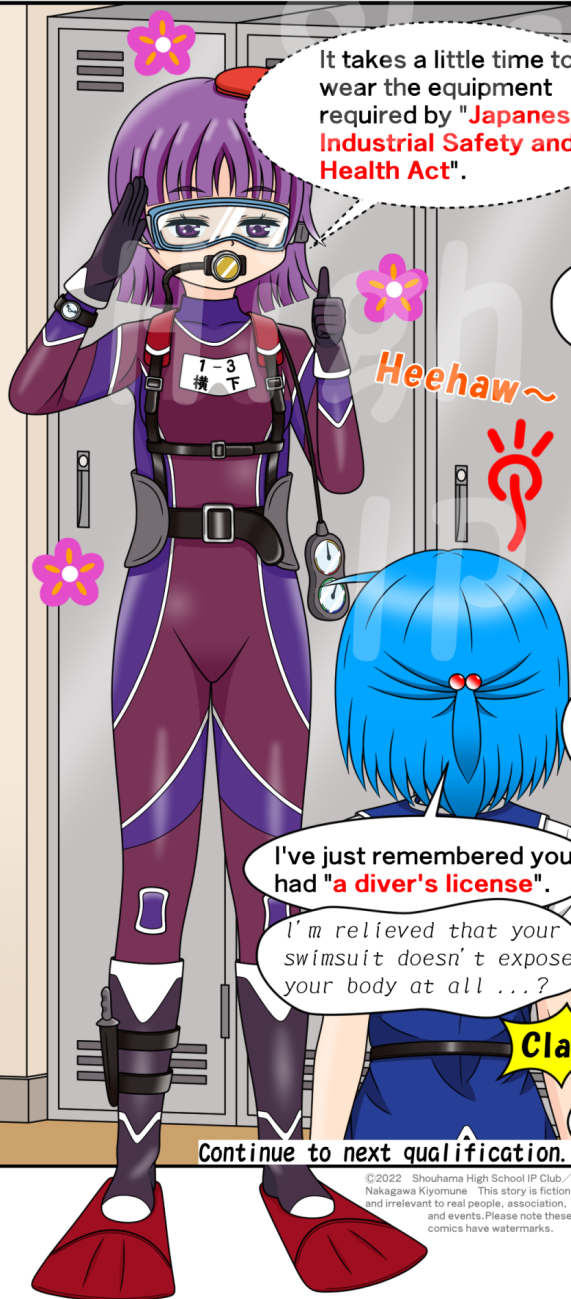

Wow! I was looking forward to this topic.

I'll take a little time to get ready to swim, so I'm going to go ahead. I'll see you later.

Hi, Misube-chan. The next class period is a swimming class. So, let's go to the changing room.

Qualifications we're having Part 5 Diver's License

It takes a little time to wear the equipment required by "Japanese Industrial Safety and Health Act".

Heehaw~

I've just remembered you had "a diver's license".

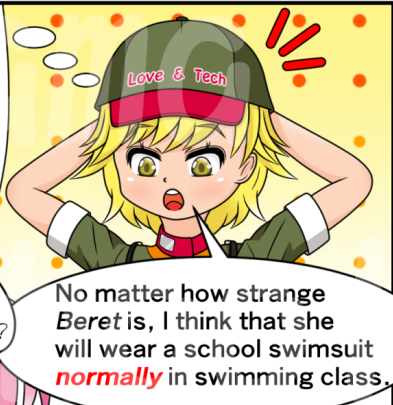

I'm relieved that your swimsuit doesn't expose your body at all ...?

Clank!

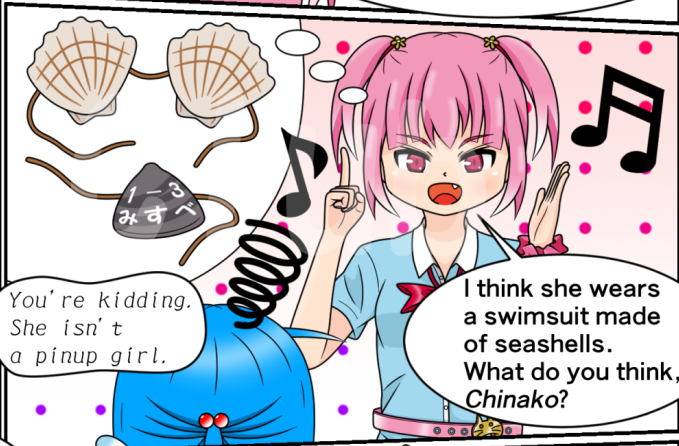

Continue to next qualification.

Hey! Look at the top panel again. Do you think Misube is normal?

No matter how strange Beret is, I think that she will wear a school swimsuit normally in swimming class.

You're kidding. She isn't a pinup girl.

I think she wears a swimsuit made of seashells. What do you think, Chinako?

Stop!

Don't let me imagine a swimsuit with a lot of exposed her body.

Well, will she wear a loincloth? Such an act may be a crime.
